**Sue Voegtlin : Block Genius: Over 201 Pieced Quilt Blocks with No Math Charts** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Block Genius: Over 201 Pieced Quilt Blocks with No Math Charts:

0 of 0 people found the following review helpful. Five Stars By mb This is an amazing resource for any quilter. 1 of 2 people found the following review helpful. Five Stars By R. Larkin Great product and good price. 0 of 1 people found the following review helpful. Five Stars By Reba Davis Like the book.

In one volume, quilters will find 201 classic blocks that they can use to hone their sewing skills, in block exchanges or to create wonderful block sampler quilts. In this impressive collection, the author organizes the blocks in groups of 2, 3, 4, and 6 grids with instructions and math provided for 6-, 9- and 12-inch blocks. This book is a block library that will be quilters go-to source for reference, inspiration and instruction. With the exception of a few that were designed by the author, the block designs are all nearly 100 years old. Some designs are still sewn to this day, but many deserve new recognition and use by today's quilters. A browser's delight: the four-color photography provides color and fabric-choice inspiration to quilters, and each block's evocative name recalls quilting's rich history. Clear instructions and expert advice: exploded diagrams of each block make construction a snap without special rulers. Tips on fabric selection, color choice, cutting, pressing and sewing. No math: The author provides accurate dimensions for each cut so that quilters can easily size their blocks for 6-, 9- or 12-inches.

**About the Author** Sue Voegtlin has been Landauer Publishing's photographer since 2008 and has designed several quilts for their books. She is an avid outdoorswoman and loves outdoor photography. She is also a wonderful sewer who began with garments, but graduated to the world of quilting when she came to Landauer using their books to guide her. Her photography is featured in several award-winning quilt books, as well as two of her favorites: *For Love of Dogs* and *For Love of Cats*.
