It has a lot of things I can do for myself and friends! Seasonal Welcome signs that are adorable. Coaster sets, a frog tote bag! I love frogs. Our church has a class that has frogs, Fully Relying On God! So when we give out gifts, it's probably a frog! Thank you so much!0 of 0 people found the following review helpful. Five StarsBy SherbearVery cool4 of 4 people found the following review helpful. ReviewBy KristianThis book had plenty of patterns that are worth stitching: a cute centerpiece that is a bee riding on a turtle, a different bug welcome sign for all four seasons, and the Blossoms Bluebirds boutique tissue cover is one of my

favorites! Sometimes buying a hardcover plastic canvas pattern book is a disappointment when you get it in because most of the patterns are a surprise, as you cannot see what all is in the book, and you take a chance because you may not like very many of the patterns. But this book was not so, it has a lot of cute patterns.

Celebrate life on a different plane as you stitch these cheery designs that will bring a smile to your face as you complete them. The smiles will continue as others see your finished projects. Bugs that aren't scary, birds that won't fly south for the winter and blooms that won't wilt or fade.
