Book is full of InspirationBy Starlett NewboldMy wife bought Tanya Fox's basic Sketch Book awhile back and when she saw the deal on Birthday Celebrations, she wanted it. She likes the multiple examples for each layout, and the fact that each card doesn't have to be 'exactly like' the sketch. She says the finished cards are pretty basic, but by changing out the paper and embellishments it's easy to give them the 'WOW' factor.0 of 0 people found the following review helpful.
