Barbara Rose, etc. : Chihuly Gardens and Glass before purchasing it in order to gauge whether or not it would be worth my time, and all praised Chihuly Gardens and Glass:

0 of 0 people found the following review helpful. Wonderful coffee table book By Chelsea Starr I bought this after reading the reviews on several Chihuly books, and this was definitely the right choice. It's a very large coffee table book with beautiful photos of Chihuly's creations placed in various gardens and natural settings. The text isn't much to write home about, but the reason you want this is for the luxurious photos. I usually don't gush when writing reviews, but this one really is a keeper. 0 of 0 people found the following review helpful. This is a cool book of his artwork as presented in outdoor and ... By John Nelson This is a cool book of his artwork as presented in outdoor and garden settings. Perfect for picking up just to glance at or to sit and read and get lost in a world of beautiful glass. 1 of 1 people found the following review helpful. Chihuly Garden and Glass By Peggy Akerman As I have now realized there are two books with the same title. The photography in this edition is of very poor quality.. Dark, difficult to truly appreciate what should be distinct, captivating form and colors of glass art. Very disappointing. Would return if not for the fact it was meant to be a special gift.

This notecard set accompanies the book of the same name. Photographs of natural light playing on the brilliant colours and unique shapes of Chihuly's work survey his memorable outdoor installations around the globe. Images from his exhibition at the historic Garfield Park Conservatory in Chicago round out this set. 12 notecards and envelopes.
