Cathy Weisman Topal : Children, Clay, And Sculpture before purchasing it in order to gage whether or not it would be worth my time, and all praised Children, Clay, And Sculpture:

0 of 0 people found the following review helpful. Five StarsBy Laurie F Tyreebest book for working with clay for teachers of young children0 of 0 people found the following review helpful. One StarBy sally diggorybook is warped. material not inspiring0 of 0 people found the following review helpful. Five StarsBy AmyAwesome resource

Kids will happily dig into the soft, malleable medium, exploring its possibilities. Theyll break the clay apart, rejoin it with water, try to model it into recognizable shapes, and cut out great big slabs to design. Pictures of professional sculptures, as well as objects created by kids, fill the book. Children will think its playtimeyou dont have to tell them theyre learning, too.
