A treasure trove of inspiration By Goddess Being With beautiful illustrations this book goes into depth about the different fibers and their history. There are beautiful pictures that inspire you to create one of a kind items for yourself, as gifts and for your home. I loved the wool overnight bag and can see this is a gift for a special friend. The book has patterns for the projects in the back and also a listing of suppliers to complete the projects. This book will be a great addition to your craft library and I am thrilled to have this in my library. The pictures are so well done that I am a bit tempted to copy them and use them as art work in my sewing room.

Handmade cloth items always have a story, and many of us spend our lives hunting and gathering precious pieces and scraps to add that final touch of life to a special room or outfit. Cloth is an inspirational guide to the beauty, history, and utility of natural textiles. Woven throughout the five main sections—cotton, wool, silk, linen, and hide—are more than 30 breathtaking sewing projects that make the most of each textile's properties, including waxed-cotton purses, Liberty-print cushions, silk scarves, linen bedcovers, and leather journals. With a guide full of invaluable information on where to buy antique fabrics and organic and well-sourced cloth, plus a toolkit of essential instructions on hand-dyeing fabric, Cloth is both a resource and an opportunity to create practical, precious, and personal items for mindful living.

The photographs in the book are beautiful.
