younger granddaughter LOVES monkeys). Today was the first day I had time to attempt to make the monkey for my granddaughter. The instructions are NOT clear as to the correct order in which to place the bands. Some instructions didn't make sense, as if steps were left out. I managed to complete my monkey but had to undo much of it and start over using previous experience with band loom animals and other items. It looks nothing like the one in the picture. In addition, the picture includes a tail on the monkey but the instructions for the tail were not included. Another problem is that the instructions for a step are not on the same page as the photo. This book is NOT for inexperienced users regardless of age to use on their own because the instructions leave out too many steps. I'd return it and request a refund but by the time I actually had time to sit down and attempt the monkey, it was too late for that. I'd also give it zero stars if that was possible. 0 of 0 people found the following review helpful. Loom Magic Charms made easy. By dolldoc Very easy instructions to follow for older kids and adults who wish to make Loom Band Charms. I loved the pictures which helped me to decipher the instructions, when I found anything a little complicated. Would recommend this instruction book to all. 0 of 0 people found the following review helpful. Five Stars By jenna Looks like new-they undervalued the condition.
