Very disappointed because I thought it would be fun By Christine Bialczak The directions are nearly impossible to follow and the necessary materials are hard to find. I don't know where they sell pipe cleaners that are 40" long! Very disappointed because I thought it would be fun. 0 of 0 people found the following review helpful. You need special, super-long pipe cleaners to make any of these cute pets! By gracie First of all, this book assumes you have a super-long piece of pipe cleaner to work with...NOT the standard (12-inch?) pieces that are sold in most craft stores. I don't know where you would find it. I bought this for my 9 year old niece, and I tried making a pet to give to her with the book, as part of the gift. It was hard! I was going to post a picture of it, but decided I was too embarrassed because it turned out pretty bad. If I'd had more time, I probably would have

ordered something else for her. 41 of 42 people found the following review helpful. Difficult to make!!! By Mommyof4kiddos I bought this as a birthday gift for my 7 year old daughter who loves crafts. She likes making things out of pipe cleaners, and I thought this would be the perfect gift. The idea behind this book is cute and fun, but the actual directions to make the dogs are incredibly hard and detailed! As an adult, I gave up quickly. I would have returned this book if not for the fact that half the price would be taken out for the return shipping. I've included two photos so other potential buyers can decide whether or not the content of this book is age appropriate for who they are purchasing it for. Disappointed...
