I was really glad I found this used copy on By MotownI had first glanced at this book a few years ago in a name brand craft store and when I was finally ready to purchase a copy I discovered it appears it was no longer in print. I was really glad I found this used copy on , which arrived in great shape. This book has lots of valuable information about the craft of making things with foil as well as how to go about getting started. In addition, there are several examples of how to use foil for various items and occasions and each project is explained in a logical order.2 of 2 people found the following review helpful. Metal Foil CraftsBy Hazell am working with copper. Love the ideas illustrated in this book. Some people are really clever and have a way of explaining detail.1 of 1 people found the following review helpful. AN OK BOOKBy CAROLTHIS BOOK IS OK,

NOT GREAT, BUT OK - I WANTED A BOOK TO DO MORE THINGS WITH KIDS - I CHOSE WRONG.
