3 of 3 people found the following review helpful. You will get hooked on crochet.By B. MaddronI want you all to know that I am a unskilled crocheter, and this book is clear and concise with explanations. If you are a beginner like me you will have to resort to looking up the various crochet stitches very often. I hope to eventually memorise them but in the meantime I'll be going back and forth from my work and to the picture an explanation. I like that you are shown how to do each stitch, It makes it much easier for me to copy, you know what they say : A picture is worth a thousand words: its even better with words. I love this book!0 of 0 people found the following review helpful.
