**Popular Woodworking Editors : Popular Woodworking's Arts Crafts Furniture: 42 Designs for Every Room in Your Home** before purchasing it in order to gage whether or not it would be worth my time, and all praised Popular Woodworking's Arts Crafts Furniture: 42 Designs for Every Room in Your Home:

2 of 2 people found the following review helpful. Nice book with great pictures, but there was a small error in the plans for my first projectBy Josh LOverall this book is pretty good. There is an nice introduction chapter that talks about the history of craftsman furniture, and there are plans for projects of all skill levels. There are also plenty of full-color pictures that show the projects in various stages of completion. For my first project I built the "All Weather Morris Chair", which I thought turned out pretty nice, but there was an error in the plans and cut list. The pictures of the author's chair show there being 4 side slats on each side of the chair, but the cut list and plans call for 5 slats per

side, which makes the spacing noticeably smaller than the seat and back slats. I didn't notice this discrepancy until I was doing some final sanding, so it was too late for me to change it. It's not a huge deal since the seat and back will be mostly covered by cushions, but it was enough for me to take a star off the review. Hopefully this will be fixed for the next edition of this book (mine was the 2nd edition).0 of 0 people found the following review helpful. Good Book for coffee table or workshop !By Robert ConnorIf you want to make stylish furniture, this should be in your library0 of 0 people found the following review helpful. Four StarsBy ChrisJust what I was after, classic furniture designs
